CRAIGSLEA STATE SCHOOL

Responsible Behaviour Plan for Students

based on The Code of School Behaviour

At Craiglea we are committed to providing a quality public education system that delivers opportunities for all students to achieve learning outcomes and reach their potential. As a school community we aim to provide a safe, progressive, focussed and supportive learning environment. We encourage each and every student to aspire to intellectual, social, emotional and physical success in line with our motto of ‘Learn for Life’.

Craiglea Care about…

Learning
Individuals
Friendship
Environment

Learning:

• Our core business, focusing on the early and middle phases of school.
• Students have a responsibility to commit to their own learning and allow others to learn while at school.

Individuals:

• Developing a sense of personal responsibility, self worth and resilience.
• Recognising and supporting the particular needs of students with disabilities, students with learning difficulties, gifted and talented students and indigenous students.

Friendship:

• Developing the ability to get along with others in our community.
• Caring about people other than ourselves.
• Building respect and understanding, not just tolerance of others.

Environment:

• Keeping our environment safe.
• Respecting property.
• Taking care of the planet we live on.

Creating and sustaining school wide, classroom and individual systems of support that improve lifestyle results for all learners is key.

Craiglea State School developed this plan in collaboration with the school community, lead by our School Wide Positive Behaviour Team and informed by SWPBS SET data and school behaviour data. A review of school data relating to attendance, absenteeism, school disciplinary absences and behaviour incidents from 2007-2009 also informed the development process. The plan was endorsed by the Principal, President of the P&C and Executive Director (Schools) in February 2010 and will be reviewed in 2012 as required in legislation.

School-wide behaviour and learning

Essential to effective learning is a safe, supportive and disciplined environment that respects the following rights:

The right of all students to learn.
The right of all teachers to teach.
The right of all to be safe.

Building a caring environment in which positive behaviour is more effective than problem behaviour in getting student needs met is essential so that academic success can be achieved. Craiglea SS bases its Responsible Behaviour Plan on the principles of School Wide Positive Behaviour Support (SWSPB). The following four beliefs underpin our Responsible Behaviour Plan:

• All behaviour serves a purpose or function for the student. We create an environment where positive behaviour is more effective than problem behaviour in enabling the student to get their needs met.

• The teaching and learning environment plays a pivotal role in managing student behaviour. We actively teach students behaviours that allow them to get their needs met in more efficient and socially acceptable ways.

• Individuals need to be acknowledged for appropriate behaviour. We establish recognition and rewards for students who consistently demonstrate appropriate behaviour.

• Relationships are built on trust and mutual respect. We build environments where all members of our community behave in a way that reflects our school rules. Modelling and fostering socially acceptable behaviours is a priority and there are responsibilities for all community members to make this happen.
School Rules
Craigselea Cares about LIFE -
   Learning - Be an Active Learner
   Individual - Be Responsible
   Friendship - Be Respectful
   Environment - Be Safe

The school rules are applicable in every context, within or outside the school grounds. The Craigselea Rules Matrix (Appendix One) clearly outlines the expectations of community members in various contexts.

Responsibilities of all Community Members

<table>
<thead>
<tr>
<th>Students are expected to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• actively participate in the school’s educational program;</td>
</tr>
<tr>
<td>• demonstrate respect for themselves and others;</td>
</tr>
<tr>
<td>• comply with rules and guidelines and cooperate with staff and others in authority;</td>
</tr>
<tr>
<td>• accept responsibility for their own behaviour and learning</td>
</tr>
</tbody>

</tr>
</tbody>
</table>

Craigselea has a range of programs, strategies and opportunities for establishing, encouraging and maintaining positive behaviour expectations within our school. For a majority of our students, this whole school proactive approach is sufficient. Some groups and individuals do however need proactive intervention and for a few, reactive as well as proactive strategies are necessary.

Whole School Behaviour Support
* classroom management plan * Craigselea Rules Matrix * dress code
* class meetings – explicit teaching re: behaviour expectations
* homework policy * internet usage policy * peer mentors * buddy classes
* anti-bullying strategy - High 5 * social skills program * LIFE awards
* Principal’s Academic Excellence Awards * Citizenship awards
CRAIGSLEA STARS celebrations * Bullying Audits * Student Leadership Program * Focus Forty Assembly Items

Targeted small groups and individuals
* Buddies for Newcomers, * Supported Play, * AVT support
* Individual BM Plan * behaviour contracts, * detention room
* reflection sheet * removal of privileges * Timeout
* Buddy Classroom, * Alternate class placement

Intensive Behaviour Support
As above but may include:
Withdrawal from class / play program
Behaviour Improvement Conditions:
Outreach support Services
External Suspension
individual supervision
Referral to STIP
Exclusion
Whole School Behaviour Support
The School Wide Positive Behaviour Support process outlines clear expectations for the implementation and establishment of a proactive, positive school community. Since 2008 our school has been adopting the principles of SWPBS by continually reviewing, modifying or adding to existing school programs. We continually promote and celebrate positive behaviour achievements in the playground, classrooms, through newsletters and on assemblies.

The school has a Craiglea Behaviour Rubric (Appendix Two), linked directly to our Craiglea Rules Matrix (Appendix One), which is used to determine students’ behaviour standard. Students who achieve the agreed standard, according to the matrix, participate in a Term celebration called Craiglea Stars. This recognises students who demonstrate a predetermined appropriate behaviour standard for Craiglea and allows them to participate in a year level activity like a disco, movie and popcorn, pool party etc.

Our curriculum and pedagogy is focussed on embedding self-management of learning and behaviour for all students. Weekly lessons for our Social skills program are conducted and class meetings are used to promote acceptable behaviour standards. Visiting performers, usually dramatic presentations, are organised to extend understandings of anti-bullying strategies, social skills etc.

Cyber Bullying, bullying using the internet, e-mail, phone texts and social networking sites, is unacceptable by Craiglea State School students. Students who engage in the cyber bullying of other students inside or outside of school may face similar consequences as for other types of bullying and harassment behaviour.

Targeted Behaviour Support
Detention Room operates daily at first break. Referrals to the detention room are for specific breaches of school rules, in the playground and classroom, as outlined on the Behaviour Incident form (Appendix Three). Parents are notified either by telephone or via a letter sent home with the student.

Supported Play operates daily at first and second break. Students who participate in supported play take part in supervised individual or small group instruction, focusing on anger management strategies, fostering friendship skills such as taking turns etc.

Advisory Visiting Teachers Behaviour Support is accessed where necessary to assist with class, group or individual behaviour challenges. Referrals are through the Special Needs Committee.

One-to-one sessions are organised for at risk students and are conducted by various school personnel to teach students strategies eg Anger management, building social skills.

Individual Behaviour Management plans are established for some students, in consultation with care-givers, to give individual students every chance of success.

Intensive Behaviour Support
Individual education programs, individual behaviour management plans, relocation to alternative placement eg office, classroom, library are all used to assist the small number of students who continually breach appropriate school behaviour.

Internal suspension, whereby a child is not allowed to participate in class activities for a specified period or external suspension whereby a child is not allowed to attend school, are implemented when deemed appropriate. Alternative placement at a district level may be offered for students who are given external suspensions for a period of six – twenty days.

Craiglea State School implements the following proactive and preventative processes and strategies to support student behaviour:
- A dedicated section of the school staff bulletin and school assembly, enabling consistent messages across the school
- School Behaviour Leadership team members' regular provision of information to staff and parents, and support to others in sharing successful practices
- Comprehensive induction programs in CSS Responsible Behaviour Plan for Students delivered to new students as well as new and relief staff.
- Individual support profiles developed for students with high behavioural needs, enabling staff to make the necessary adjustments to support these students consistently across all classroom and non-classroom settings.
- Development of specific policies to address:
  - The Use of Personal Technology Devices* at School (Policy Section – School Handbook)
  - Procedures for Preventing and Responding to Incidents of Bullying (Policy Section – School Handbook)
Emergency or Critical Incident Responses

Craiglea State School staff have a clear and consistent understanding of how to respond to emergency situations or critical incidents involving severe problem behaviour. This consistency ensures appropriate actions are taken to ensure that both students and staff are kept safe.

An emergency situation or critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action.

Severe problem behaviour is defined as behaviour of such intensity, frequency, or duration that the physical safety of the student or others is likely to be placed in serious jeopardy.

Basic defusing strategies
Avoid escalating the problem behaviour
(Avoid shouting, cornering the student, moving into the student’s space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language).

Maintain calmness, respect and detachment
(Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally).

Approach the student in a non-threatening manner
(Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates).

Follow through
(If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students’ attention towards their usual work/activity. If the student continues with the problem behaviour then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour).

Debrief
(Help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations).

Physical Intervention
Staff may make legitimate use of physical intervention if all non-physical interventions have been exhausted and a student is:
- physically assaulting another student or staff member
- posing an immediate danger to him/herself or to others.

Physical redirection is appropriate for younger students when they are being non-compliant and their non-compliance is causing significant disruption to the class routine.

Appropriate physical intervention may be used to ensure that Craiglea State School’s duty of care to protect students and staff from foreseeable risks of injury is met. Physical redirection of younger students is appropriate their level of non-compliance is causing significant disruption to the school setting.

Physical intervention can involve coming between students, blocking a student’s path, leading a student by the hand/arm, shepherding a student by placing a hand in the centre of the upper back, removing potentially dangerous objects and, in extreme situations, using more forceful restraint.

It is important that all staff understand:
- physical intervention cannot be used as a form of punishment
- physical intervention must not be used when a less severe response can effectively resolve the situation
- the underlying function of the behaviour.

Any physical intervention made must:
- be reasonable in the particular circumstances,
- be in proportion to the circumstances of the incident
- always be the minimum force needed to achieve the desired result, and
- take into account the age, stature, disability, understanding and gender of the student to ensure appropriate contact.

Record keeping
- Each instance involving the use of physical intervention must be formally documented in the behaviour incident report on One School.
The network of student support

Behaviour Management at Craiglea State School is a partnership between school, home, other professionals and outside agencies. All stakeholders must play a part. It must be emphasised that the management of the behaviour of any student is not solely the responsibility of his/her classroom teacher. The community is expected to work together to actively encourage all students to meet the expectations around school behaviour.

Our network for student support at Craiglea consists of:-
- Peer networks;
- Class teachers;
- Care givers;
- School Support Staff eg. Teacher Aides, Janitor / Groundsman, Office staff;
- Guidance Officer;
- Leadership Team;
- Learning Support Teacher;
- Special Education Teachers;
- Advisory Visiting Teachers;
- Department of Child Safety;
- Health Professionals;
- District Behaviour Management Team;
- Adopt-a-Cop
- Juvenile Aid Bureau;

Consideration of individual circumstances

Students are viewed as unique individuals with differing needs, interests, values, expectations and abilities. Each student is catered for according to this belief.

This is achieved through an awareness of the student's:-
- Family circumstances and support
- Behaviour history
- Maturity
- Ability to learn

In addition to this, when dealing with a behavioural issue, we consider:-
- Circumstances
- Severity
- Intent
- Provocation
- Reliability of evidence

Consequences for unacceptable behaviour

Craiglea State School makes systematic efforts to prevent problem student behaviour by teaching and reinforcing expected behaviours on an ongoing basis. When unacceptable behaviour occurs, students experience predictable consequences. Our school seeks to ensure that responses to unacceptable behaviour are consistent and proportionate to the nature of the behaviour. A behaviour incident form is used to record all minor and major problem behaviour and incidents are recorded in One School.

Minor and major behaviours

When responding to problem behaviour the staff member first determines if the problem behaviour is major or minor, with the following agreed understanding:
- Minor problem behaviour is handled by staff members at the time it happens
- Major problem behaviour is referred directly to the school Administration team

Minor behaviours are those that:
- are minor breaches of the school rules
- do not seriously harm others or cause you to suspect that the student may be harmed
- do not violate the rights of others in any other serious way
- are not part of a pattern of problem behaviours
- do not require involvement of specialist support staff or Administration.

Minor problem behaviours may result in the following consequences:
- a minor consequence logically connected to the problem behaviour, warning, timeout, withdrawal form class or play eg. detention
- a re-direction procedure. The staff member takes the student aside and:
  1. names the behaviour that student is displaying
  2. asks student to name expected school behaviour
  3. states and explains expected school behaviour if necessary
  4. gives positive verbal acknowledgement for expected school behaviour
Major behaviours are those that:
  - significantly violate the rights of others
  - put others / self at risk of harm
  - require the involvement of school Administration.

Major behaviours result in an immediate referral to Administration because of their seriousness. When major problem behaviour occurs, staff members calmly state the major problem behaviour and remind the student of expected school behaviour. The staff member then fills out the Behaviour Incident form and escorts the student to Administration. Examples of appropriate consequences for behaviour are outlined on the back of the behaviour incident form. Students who are sent to the Leadership Team may receive one of the following:
  - Warning
  - Timeout in the Office
  - Withdrawal from class or play
  - Detention
  - Referral for Guidance Officer/ Intensive Behaviour support Team
  - External Suspension
  - Exclusion

</tbody>
</table>

Redirection is teacher intervention where child is directed to timeout.

Children who gain a C rating or higher will be eligible for Craiglea Stars celebration day each term.

Significant Behaviour Incidents requiring removal from class, detention, time out in supported play, internal or external suspensions may lower overall Behaviour ratings by one or more standards.

**EVERY DAY COUNTS** – Being at school every day gives you the best chance of being successful.
